

# Noble® UNIVERSITY Online

Web-based Training & Certification

**Noble®UNIVERSITY Online** offers web-based learning on Noble software solutions for product training and certifications. This interactive tool allows your team members to enroll in courses and complete them at their convenience, reducing time away from their crucial daily job functions and eliminating travel costs.

Clients can take advantage of our web-based training services through our Noble® UNIVERSITY Online courses. Our Online curriculums feature product training with end of course testing to ensure learning. Certification Programs allow users to achieve 'Certified User' status at the successful completion of required courses and testing.

These classes are ideal for users looking to update their Certifications or learn about new system features, or for new employees to gain a basic knowledge of the system, without requiring travel commitments and costs.

## Noble UNIVERSITY Online Enrollment Options

- Degree-Seeker: Annual Subscription, Access to All Product Training Courses
  - Individual and Corporate (6-User) Packages are available.
  - Enrollments are based on named users and are not transferrable.
- Class-Pass: 'Pay-as-you-go' Single-User Plan, 60-Day Access to a Specific Course
